INTRODUCTION

Meet saxophone player Chris Dickhaus! He will tell you about his instrument and why he chose to play it.

<u>Click here</u> to play the video. (Video approx. 1.5 minutes)

FUN FACTS

- The saxophone is named after its inventor: Adolphe Sax.
- Simpsons fans might know that Lisa Simpson plays the saxophone. Here her play a little bit here.
- Even though the body of the saxophone looks like a brass instrument, the sound is created through the vibration of a reed, so the saxophone is a member of the woodwind family.
