About the Performers:

Soojin Lee has played the gayageum (pronounced "Gah-yah-gum") for over 30 years. She studied gugak (Korean traditional music), specializing in gayageum performance in Korea. Since moving to Minnesota in 2011, she has continued performing and sharing gugak and the gayageum in schools, concert halls, and community settings. She enjoys connecting with audiences of all ages and introducing them to the beauty and unique sounds of Korean music.

Learning Goals:

1. Students will be able to identify the gayageum by sight and sound and describe how it differs from other familiar string instruments.
2. Students will recognize some distinctive features of Korean traditional music, including its rhythms, melodies, and expressive techniques.
3. Students will experience Korean folk music by listening, singing, and moving to jangdan (rhythmic patterns).

Preparing for your Class Notes Concert

Thank you for signing up for a Class Notes Concert, brought to you by YourClassical MPR!

The Class Notes team has created two resources to help prepare for and extend the Class Notes Concerts experience:

1. **Meet the Artist PowerPoint.** Build excitement for the concert by introducing the ensemble in advance. Students will learn key information like instrumentation and style of music.
2. **Supporting Materials Packet.** The lessons in this packet come from the [Class Notes Lesson Library](#). The first lesson is designed to be a starting point for discussing audience behavior prior to the concert. All other lessons align with learning objectives for this artist. Use these before the concert to introduce an important musical concept or after the experience to reinforce learning. Every classroom is different. Teachers should customize all content to fit student needs.

After your Class Notes Concert, please fill out our teacher survey and have your students complete our student survey. Class Notes staff will send a link with instructions after your concert.

PACKET CONTENTS

- 1) What is an AUDIENCE?
- 2) Music & Geography: Around the World

MUSIC FUNDAMENTALS: What is an AUDIENCE?

Age Range: Elementary, Grades K-3

Learning Objective: Students will demonstrate active listening and positive audience behavior in a concert setting.

Total Video Time: 5:29

INTRODUCE the concept of audience

1. Ask, "Have you ever been to a concert or performance?" Allow students time to respond.
2. Explain, "There are two main jobs at a concert: the job of the *performer*, and the job of the *audience*."
3. Ask students to share with a classmate about a time they watched a performance. What did the performer do? What did the audience do?

After some time for students to discuss with each other, encourage students to share out their experiences with the class, supporting and validating the variety of experiences.

4. Remind students, "There are many kinds of audiences. The type of concert influences how an audience responds."
5. As a classroom, create a chart listing positive and respectful audience behavior. Use the [sample chart](#) as a starting point.

LEARN about being an audience

1. Explain, "Sometimes an audience will dance and sing along with a performer. Sometimes it's the job of an audience to listen and notice as many sounds as possible. When we need to notice sounds, our own voices and body wiggles can keep us from hearing the performer. So it can be helpful to let out some wiggles and sounds before listening."
2. Learn to sing a song about being in the audience: "We Are The Audience." (Download the score [here](#).)
3. Watch our Class Notes Video: [What to do at a Concert](#).

EXTEND learning about being an audience

Choose one or more activities to extend learning.

1. Practice audience skills by utilizing one of our [Class Notes Virtual Concerts](#). In these lessons, teachers play the role of Concert Host, and students play the role of the audience.
2. Hold your own classroom concert! Assign performers, audience members, and observers. The job of the observers is to notice good audience behavior. (i.e. "I noticed STUDENT was watching the performer and not talking!")

Visuals: What is an AUDIENCE?

We Are the Audience when....

- We **listen** to and **notice** sounds.
- We research in advance: Who is visiting your school? Where are they from? What type of music can you expect?
- We follow directions on where and how to sit so you can see and hear.
- We are curious! What questions would you ask the performer?
- We notice the *timbre*, or unique and special sounds, made by each instrument or voice.
- We make predictions. What do you think will happen next?
- We share your experience with someone at home.
- We show appreciation at the end by clapping.

so sounds can co - ome in.

Suggestion for song usage:

The first time the song is introduced, ask students to watch and listen, and encourage them to keep a steady beat (maybe by rhythmically bouncing one fist on top of another.) Perform just the first half of the song. When you get to the "wiggle" part, ask them to join you. Repeat the first part of the song again- this time they can join you in the singing. After the second wiggle, explain, "This time the song starts the same, but ends differently." Slow down and get considerably quieter on "Feel your body quiet down..." so that you are at a slow whisper by the end of the song.

MUSIC & GEOGRAPHY: Around the World

Age Range:	Elementary, Middle School, Grades 2-8
Learning Objective:	Students will demonstrate an understanding that artistic works are influenced by personal and cultural contexts.
Total Video Time:	37:35 for all examples
Total Lesson Time:	Approximately 10 minutes for each genre

INTRODUCE music around the world with a game

1. Ask students to name a song, and then ask where it's from. Encourage them to research if they don't know.
2. Repeat several times. If examples seem to all be from a very specific time or place, encourage them to think of a song from someplace else.
3. After a few rounds, students will begin to draw the connection that music is a cultural expression, and that music comes from everywhere.

EXPLORE music around the world

1. Show students a blank map of the world [like this one](#). Explain that you will visit various locations. During each "visit" you will learn about a particular style of music that originated in that area. "Visits" might be spread out over several class periods.
2. Select locations/musical styles from the options below, or others of your own choosing:
 - [Traditional Ojibwe singing](#) - Minnesota/the Dakotas/Canada (Video approx. 11 minutes)
 - [Ragtime](#) - St. Louis, MO (Video approx. 2.5 minutes)
 - [Mariachi](#) - Mexico (Video approx. 3.5 minutes)
 - [Alpine yodeling](#) - Switzerland/Austria (Video approx. 3 minutes)
 - [Raga](#) - India (Video approx. 2 minutes)
 - [Tuvan throat singing](#) - Mongolia (Video approx. 4 minutes)
 - [Kwv Thxaij](#) [kuh tsee-ah] - Southeast Asia (Video approx. 3 minutes)
 - [Taiko](#) [ty-koh] - Japan (Video approx. 8.5 minutes)
3. Once you select your places, mark the locations on a map.
4. Choose a country to "visit." Start by listening to music in that style.
5. Using the [included printable worksheet](#), fill out a fact grid, so that students learn core characteristics of each style. You may present the material to students or have them do research on their own.
6. Visit as many places as your time frame allows! Use [our completed grids](#) as a starting point for each culture.
7. If you wish, continue "visiting" countries/regions throughout the year. Customize the lesson by visiting a region that you or one of your students has lived in.
