YourClassical Class Notes

Nyttu Chongo

Supporting Materials Packet

Nyttu Chongo Photo Credit: Jenny Cvek

About the Performers:

Nyttu Chongo is an experienced musician and composer from Maputo, Mozambique, now based in Minnesota. He builds, repairs, and plays a wide array of traditional Mozambican and Rwandan instruments. Nyttu is dedicated to preserving and sharing the cultural heritage of his ancestors and sparking curiosity in the universal language of music. In his Class Notes Concert, Nyttu fosters interactive music making that helps deepen students' understanding of music and cultural traditions.

Learning Goals:

- 1. Students will identify by sight and sound several African instruments, including mbira and timbila.
- 2. Students will understand that music is a cultural expression.
- 3. Students will experience steady beat through movement and dance.

Preparing for your Class Notes Concert

Thank you for signing up for a Class Notes Concert, brought to you by YourClassical MPR!

The Class Notes team has created two resources to help prepare for and extend the Class Notes Concerts experience:

- Meet the Artist PowerPoint. Build excitement for the concert by introducing the ensemble in advance. Students will learn key information like instrumentation and style of music.
- 2. Supporting Materials Packet. The lessons in this packet come from the <u>Class Notes Lesson Library</u>. The first lesson is designed to be a starting point for discussing audience behavior prior to the concert. All other lessons align with learning objectives for this artist. Use these before the concert to introduce an important musical concept or after the experience to reinforce learning. Every classroom is different. Teachers should customize all content to fit student needs.

After your Class Notes Concert, please fill out our teacher survey and have your students complete our student survey. Class Notes staff will send a link with instructions after your concert.

PACKET CONTENTS

- What is an AUDIENCE?
- 2) Music & Geography: Around the World
- 3) What is STEADY BEAT?
- 4) Virtual Concert: Heliopsis

MUSIC FUNDAMENTALS: What is an AUDIENCE?

Age Range: Elementary, Grades K-3

Learning Objective: Students will demonstrate active listening and positive audience behavior in a

concert setting.

Total Video Time: 5:29

INTRODUCE the concept of audience

1. Ask, "Have you ever been to a concert or performance?" Allow students time to respond.

- 2. Explain, "There are two main jobs at a concert: the job of the *performer*, and the job of the *audience*."
- 3. Ask students to share with a classmate about a time they watched a performance. What did the performer do? What did the audience do?
 - After some time for students to discuss with each other, encourage students to share out their experiences with the class, supporting and validating the variety of experiences.
- 4. Remind students, "There are many kinds of audiences. The type of concert influences how an audience responds."
- 5. As a classroom, create a chart listing positive and respectful audience behavior. Use the <u>sample chart</u> as a starting point.

LEARN about being an audience

- 1. Explain, "Sometimes an audience will dance and sing along with a performer. Sometimes it's the job of an audience to listen and notice as many sounds as possible. When we need to notice sounds, our own voices and body wiggles can keep us from hearing the performer. So it can be helpful to let out some wiggles and sounds before listening."
- 2. Learn to sing a song about being in the audience: "We Are The Audience." (Download the score <u>here</u>.)
- 3. Watch our Class Notes Video: What to do at a Concert.

EXTEND learning about being an audience

Choose one or more activities to extend learning.

- 1. Practice audience skills by utilizing one of our <u>Class Notes Virtual Concerts</u>. In these lessons, teachers play the role of Concert Host, and students play the role of the audience.
- 2. Hold your own classroom concert! Assign performers, audience members, and observers. The job of the observers is to notice good audience behavior. (i.e. "I noticed STUDENT was watching the performer and not talking!)

Visuals: What is an AUDIENCE?

We Are the Audience when....

- We listen to and notice sounds.
- We research in advance: Who is visiting your school? Where are they from? What type of music can you expect?
- We follow directions on where and how to sit so you can see and hear.
- We are curious! What questions would you ask the performer?
- We notice the *timbre*, or unique and special sounds, made by each instrument or voice.
- We make predictions. What do you think will happen next?
- We share your experience with someone at home.
- We show appreciation at the end by clapping.

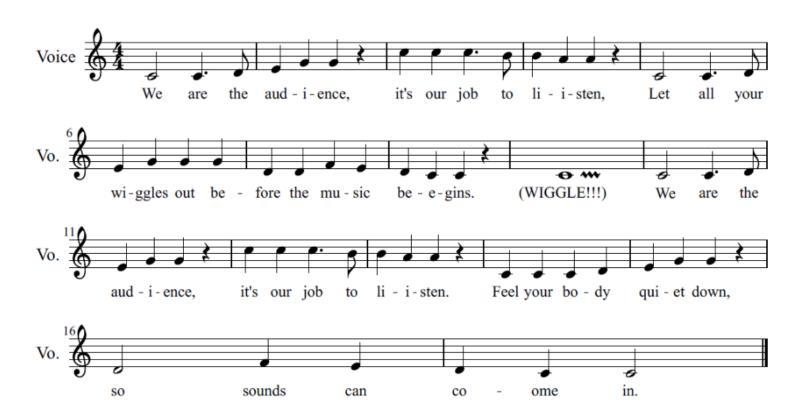

Visuals: What is an AUDIENCE?

We Are the Audience

K. Condon

Suggestion for song usage:

The first time the song is introduced, ask students to watch and listen, and encourage them to keep a steady beat (maybe by rhythmically bouncing one fist on top of another.) Perform just the first half of the song. When you get to the "wiggle" part, ask them to join you. Repeat the first part of the song again- this time they can join you in the singing. After the second wiggle, explain, "This time the song starts the same, but ends differently." Slow down and get considerably quieter on "Feel your body quiet down…" so that you are at a slow whisper by the end of the song.

MUSIC & GEOGRAPHY:

Around the World

Age Range: Elementary, Middle School, Grades 2-8

Learning Objective: Students will demonstrate an understanding that artistic works are influenced by

personal and cultural contexts.

Total Video Time: 37:35 for all examples

Total Lesson Time: Approximately 10 minutes for each genre

INTRODUCE music around the world with a game

- Ask students to name a song, and then ask where it's from. Encourage them to research if they don't know.
- 2. Repeat several times. If examples seem to all be from a very specific time or place, encourage them to think of a song from someplace else.
- 3. After a few rounds, students will begin to draw the connection that music is a cultural expression, and that music comes from everywhere.

EXPLORE music around the world

- 1. Show students a blank map of the world <u>like this one</u>. Explain that you will visit various locations. During each "visit" you will learn about a particular style of music that originated in that area. "Visits" might be spread out over several class periods.
- 2. Select locations/musical styles from the options below, or others of your own choosing:
 - Traditional Ojibwe singing Minnesota/the Dakotas/Canada (Video approx. 11 minutes)
 - <u>Ragtime</u> St. Louis, MO (Video approx. 2.5 minutes)
 - <u>Mariachi</u> Mexico (Video approx. 3.5 minutes)
 - <u>Alpine yodeling</u> Switzerland/Austria (Video approx. 3 minutes)
 - Raga India (Video approx. 2 minutes)
 - <u>Tuvan throat singing</u> Mongolia (Video approx. 4 minutes)
 - <u>Kwv Thxiaj</u> [kuh tsee-ah] Southeast Asia (Video approx. 3 minutes)
 - <u>Taiko</u> [ty-koh] Japan (Video approx. 8.5 minutes)
- 3. Once you select your places, mark the locations on a map.
- 4. Choose a country to "visit." Start by listening to music in that style.
- 5. Using the <u>included printable worksheet</u>, fill out a fact grid, so that students learn core characteristics of each style. You may present the material to students or have them do research on their own.
- 6. Visit as many places as your time frame allows! Use <u>our completed grids</u> as a starting point for each culture.
- 7. If you wish, continue "visiting" countries/regions throughout the year. Customize the lesson by visiting a region that you or one of your students has lived in.

SAMPLE GRIDS (page 1)

Completed Grid: Ojibwe Singing

| Genre/Style | TRADITIONAL OJIBWE-ANISHINAABE MUSIC |
|----------------------|-----------------------------------------------------------------------------------------------------------------------|
| Location | Parts of Minnesota and Canada, surrounding Lake Superior |
| Description of Music | Songs from the Ojibwe-Anishinaabe: This music is often vocal and uses instruments such as rattles, shakers and drums. |
| Fact #1 | The number four is an important element in Ojibwe-Anishinaabe music and culture. It represents balance. |
| Fact #2 | Music is used from many things in Ojibwe-Anishinaabe culture: teaching, celebration and traditional ceremonies. |
| Fact #3 | You should ask permission to perform a song someone else has written. |
| Musical Example | Video: Teaching Appreciation and Understanding for Native American Music and Culture |

Completed Grid: Ragtime

| Genre/Style | RAGTIME |
|-------------------------|----------------------------------------------------------------------------------------|
| Location | St. Louis, Missouri, USA |
| Description of Music | Music characterized by a syncopated melodic line and regularly accented accompaniment. |
| Fact #1 | Was most popular during the early years of the 20 th century. |
| Fact #2 | Scott Joplin was a famous ragtime composer. |
| Fact #3 | Gets its name from its "ragged," or syncopated rhythms. |
| Musical Example | Video: Scott Joplin's Maple Leaf Rag |

SAMPLE GRIDS (page 2)

Completed Grid: Mariachi

| Genre/Style | MARIACHI |
|----------------------|------------------------------------------------------------------------------------------------------------------------|
| Location | Mexico |
| Description of Music | Folk music from Mexico. There are variations in the music depending on the precise region of the origin within Mexico. |
| Fact #1 | Instrumentation usually includes violin and guitar and sometimes trumpet. |
| Fact #2 | Some Mariachi music uses <i>falsetto</i> vocals. |
| Fact #3 | Mariachi music is often used in celebrations or special events, like weddings, holidays or funerals. |
| Musical Example | Video: Mariachi Sol De Mexico |

Completed Grid: Yodeling

| Genre/Style | ALPINE YODELING |
|-------------------------|--------------------------------------------------------------------------|
| Location | Switzerland, Austria |
| Description of Music | Form of singing developed in rural areas of the Alps. |
| Fact #1 | Involves fast changes between high and low pitches. |
| Fact #2 | Singer must switch register, which is a practiced skill. |
| Fact #3 | Was originally developed as a form of communicating over long distances. |
| Musical Example | Video: Franzl Lang- Jodlergsang und Zitherklang |

SAMPLE GRIDS (page 3)

Completed Grid: Raga

| Genre/Style | RAGA |
|----------------------|-------------------------------------------------------------------------------------|
| Location | India |
| Description of Music | A traditional melodic pattern that is a fundamental part of Indian classical music. |
| Fact #1 | Uses a series of five to nine notes as a basis for composition, then improvisation. |
| Fact #2 | Specific ragas can be associated with certain times of day or seasons. |
| Fact #3 | There are regional differences between ragas and raga interpretation. |
| Musical Example | Video: Ravi Shankar- Tenth Decade |

Completed Grid: Throat Singing

| Genre/Style | TUVAN THROAT SINGING |
|-------------------------|------------------------------------------------------------------------------------------------------|
| Location | Mongolia, Siberia, Russia, Tuva |
| Description of Music | A style of singing in which the singer produces two pitches at the same time, creating harmony. |
| Fact #1 | Attempts to mimic or imitate sounds of nature |
| Fact #2 | The singer produces a fundamental pitch and then a particular overtone, part of the harmonic series. |
| Fact #3 | There are different ways of categorizing the variations of Tuvan throat singing. |
| Musical Example | Video: <u>Tuvan Throat Singing</u> |

SAMPLE GRIDS (page 4)

Completed Grid: Kwv Thxiaj

| Genre/Style | KWV THXIAJ (pronounced "k-ou ts-ee-ah") |
|----------------------|----------------------------------------------------------------------------------------------------------------|
| Location | Southeast Asia, including Laos, Thailand, Vietnam, parts of China |
| Description of Music | Vocal folk music of the Hmong people. |
| Fact #1 | Sung by both men and women of all ages. |
| Fact #2 | This music is for voice only. The vocal quality is raw, powerful, and loud. |
| Fact #3 | The language in these songs is referred to as "paj lug," or "flowery language." It is often used for courting. |
| Musical Example | Video: <u>Kwv Txhiaj</u> |

Completed Grid: Taiko

| Genre/Style | TAIKO |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Location | Japan |
| Description of Music | Percussion-based music usually played in an ensemble using a variety of instruments. |
| Fact #1 | Has ancient origins. |
| Fact #2 | Has been used for many purposes, including communication, use in military activities, and use for theatrical accompaniment. |
| Fact #3 | Styles vary by region. |
| Musical Example | Video: <u>Kodo – "O-Daiko"</u> |

MUSIC FUNDAMENTALS: What is STEADY BEAT?

Age Range: Elementary, Grades K-2

Learning Objective: Students will identify and respond to steady beat through active movement.

Total Video Time: 9:34

Total Lesson Time: Approximately 25 minutes

INTRODUCE steady beat through movement

Choose a song or chant from your classroom repertoire.

2. While singing or chanting, have students demonstrate the steady beat by tapping their heads, knees, stomping, clapping, or jumping.

TEACH steady beat

- 1. Explain, "Music has a steady beat a heartbeat that pulses underneath. When we listen to music, we often tap our foot, bob our head, or dance to the steady beat."
- 2. Listen to <u>Jump in the Line</u> by Harry Belafonte (video approx. 3.5 minutes). Depending on your space, have students shake, jump, clap, or stomp along with the beat.
- 3. Explain, "Beats can be split up into smaller sounds, or they can be held longer to make longer sounds."
- 4. "Let's try this clapping experiment. First, let's clap four steady beats."

CLAP

CLAP

CLAP

CLAP

"Let's cut that beat in half and double the claps."

clap-clap

clap-clap

clap-clap clap-clap

"Now let's make the beats bigger by making them longer."

CLAP ----- (hold) CLAP----- (hold)

- 5. "In music, these sounds can be stacked on top of each other. Rhythms fit inside each other, sort of like Russian nesting dolls." (Show this image.)
- 6. Listen to <u>Jump in the Line</u> again and try each kind of rhythm. For older groups, split the group and try two at once.

EXTEND steady beat

- Dance, step, or move to these songs: <u>Twistin' Matilda</u> (video approx. 3 minutes) and/or <u>Hang</u> on <u>Sloopy</u> (video approx. 3 minutes).
- 2. Use a theme to show beat and rhythm. Choose a short rhythm ostinato for students to move to. If possible, use a classroom instrument to play the rhythm while students move. Eventually, switch the ostinato. Ask students to pick the next rhythm pattern.

Theme Examples:

- WINTER: Stomp in snow (quarter notes), throw snowballs (eighth notes), glide on skates (half or whole note)
- BASKETBALL: Pass (quarter), Dribble (eighth notes), Shooooot (half or whole)
- DANCE: Kick (quarter), Tip Toe (eighth), Spin (half or whole)

VIRTUAL CONCERT:

Heliopsis

Age Range: Elementary, Grades K-6

Learning Objective: Students will connect and respond to music through active listening and reflection.

Total Video Time: 14:32

Total Lesson Time: Approximately 25 minutes

HOW TO USE Virtual Concerts

Virtual Concerts give students the opportunity to be an audience and experience a variety of music. The teacher or students play the role of Concert Host narrating between each piece.

Use the provided Concert Host Script to guide students through a series of videos reenacting a concert. Customize the lesson to fit your needs, resources, and teaching style.

CUSTOMIZE the experience

Every classroom is unique. Choose among the following ideas to make the experience fit your teaching style and your students' needs.

- 1. **Discuss the role of the audience.** This virtual concert is designed to prepare students to be an audience. For younger kids, use our <u>Audience Lesson</u> before this concert. For older students, facilitate a discussion on the different kinds of audiences for events such as a rock concert, a hockey game, a piano recital, etc.
- 2. Let the students be the Concert Host. Cut the script into strips and hand them out to different students. Be sure to number the strips first, so you can call kids up at the appropriate time. (Recommended for Grades 4 and up.)
- **3. Make the experience interactive.** Pause for reflection after each video. Ask kids what they noticed, what surprised them, what questions they have. Invite students to share their thoughts with a neighbor, so everyone gets a chance to talk. (*Recommended for all ages.*)
- **4. Show clips instead of the whole video.** Younger kids may have a hard time focusing on longer pieces. Either show only part of the longer videos, OR offer an activity (like drawing a picture) to help focus their energy while listening. (*Recommended for Grades K-2*)

EXTEND learning

Choose one or more connected lessons to extend learning.

- <u>Instrument Exploration: Cello</u>
- What is IMPROVISATION?
- Music & Geography: Around the World

Concert Host Script

HELIOPSIS

HOST: "Welcome to our virtual concert featuring a group called Heliopsis (hee-lee-AWP-sis). Today we'll meet musicians Mikey and Nyttu (NEE-too). Let's listen to their first piece of music, *Katydid*."

VIDEO: Heliopsis - Katydid (3 min.)

HOST: "Mikey plays the cello (CHE-llow) and Nyttu plays the timbila (tim-BEE-la). In the next video, Nyttu will share some facts and information about the timbila."

VIDEO: <u>Heliopsis - Timbila Demonstration</u> (1.5 min.)

HOST: "Nyttu comes from the country of Mozambique on the continent of Africa. Many of the instruments he plays are common in Mozambique. Take a look on the map below to see where Mozambique is located."

VISUAL: Map of Mozambique

HOST: "Mikey and Nyttu use a process called *improvisation* to create many of their compositions. In the next video, they will explain and demonstrate how they collaborate and use improvisation to compose pieces together."

VIDEO: Heliopsis - Improvisation Demonstration (2.5 min.)

HOST: "Did you notice the instrument Nyttu was playing in that video? It's called the mbira (mBEE-rah). Let's take a closer look at that instrument."

VIDEO: <u>Heliopsis - Mbira Demonstration</u> (1.5 min.)

HOST: "We've seen three instruments today: the timbila, the mbira, and... does anyone remember the name of Mikey's instrument? It's the cello. Let's learn a little more about the cello."

VIDEO: <u>Heliopsis - Cello Demonstration</u> (1.5 min.)

HOST: "Mikey and Nyttu composed the last piece of this concert through improvisation. As you watch, think about how they might have worked together to create this piece."

VIDEO: Heliopsis - Ngoma ya Tumbuluko (4.5 min.)

HOST: "Thank you for coming to our Class Notes concert featuring Heliopsis! We hoped you enjoyed learning about the cello, timbila, mbira and the process of improvisation! Let's give a round of applause for Mikey and Nyttu!"
